EDUCATION

B-Tech CSE
Jaypee Institute of Information Technology, Noida
2021 - Present   CGPA – 8.0

PERSONAL PROJECTS

Personal Portfolio: A website
- A fully responsive website with all necessary parts.
- Material theme, automated navigation page, links to social platforms.
- Technologies, and languages used are: HTML, CSS and JavaScript for frontend, styling and responsiveness.

Garbage Management System
https://github.com/vishalkjais/minorvishal
- Designed user-centric features including secure registration, login, and customizable pickup scheduling for both individual and organizational users.
- Implemented a user data management feature by capturing essential details through a user-friendly form and facilitating seamless presentation of this data to administrators, enhancing overall system transparency and administrative control.

Yelp Review Analysis
https://github.com/ayu15-17/Yelp-Review-Analysis
- Aims to leverage advanced data analysis techniques on a dataset, after cleaning and processing, containing ratings to advise whether a given location within the city is conductive to establishing a new restaurant.
- Identifying popular types of restaurants based on online orders, table booking feature, location, number of votes, cuisines.
